

Job Description

Job Title:	Graduate Software Developer
Job Ref:	ICGD18
Reporting To:	Team Leader
Purpose:	To develop high quality, web-based software applications using the latest Internet and web technologies on behalf of ICONI Software.

ICONI Software delivers large scale programme management information systems to organisations in the Employability, Enterprise and Economic Development, Learning and Skills and Health and Wellbeing sectors across the UK & Ireland. Our web-based software enables organisations to manage, track and report on all aspects of the support they provide to their clients.

We are looking for a Graduate Software Developer to contribute to our company's continued growth and the technical delivery of web-based solutions. The successful candidate will have a strong passion for coding and problem solving and will contribute to the delivery of new solutions, feature enhancements and the maintenance of our existing Customer base by being involved in all stages of the Software Development lifecycle.

The Role:

- Design and development of solutions, change controls and product features
- Investigating and resolving system defects
- Contributing to the ongoing enhancements of our core platform/product
- Working closely with your team lead and conducting Technical Design sessions
- Regularly innovate and suggest new ideas for improvement
- Unit Testing against company standards to ensure high quality code is delivered
- Communicating with our customers regarding features, requirements or issues
- Regular use of technologies such as C#/SQL, Visual Studio, SQL Management Studio & Microsoft Azure
- Contribute to the wider business initiatives of ICONI Software
- Regular reporting to your Line Manager on performance and activities
- Providing technical assistance to the ICONI Support Team for Incidents, Problems and Changes
- Work flexible hours as required and be prepared to travel throughout the UK/Ireland

Job Specification

Required

- Graduated (or completing) an Honours Degree in a Computer Science or equivalent related discipline
- Enthusiastic and willingness to learn new technologies and skills
- Capable of demonstrating a logical approach to solving programming tasks
- Have pride in your work to ensure only the highest standard of code is produced
- A strong interest in problem solving and the ability to work as part of a team

Desirable

- Development experience in ASP.net, MS SQL, C#, JavaScript, JQuery, CSS, HTML
- Knowledge of Visual Studio and Team Foundation Server
- Working knowledge of Unit Testing frameworks
- Microsoft Certified

Benefits:

- Competitive salary
- Laptop and on the job training
- Monthly team activities (brown bag lunches, ideas sessions etc.)
- Rapid skills acceleration (SQL, C#, JQuery, database design)

If you think this position is right for you and your CV demonstrates the required specification, send your CV to us by 5:30pm on Friday 3rd November 2017 to jobs@iconi.co.uk
